with the Nazis. Last October, Jagmetti spoke openly about the misucatment of

Holocaust survivors who had sought to recover their assers from Swiss banks. He also repeatedly pledged Switzerland's commitment to review its wartime history, but cautioned: "Accusations should not be made before records have been carefully analyzed, and sinister motives should not be attributed to measures taken out of

Syrian talks were to end by June '96

By DOUGLAS DAVIS and DAVID MAKOVSKY

Israel and Syria agreed early last year to successfully conclude peace talks by June 1996, but this was torpedoed by Shimon Peres's decision to hold early elections, chief Syrian oegotiator Walid Mualem said in an interview to be published shortly in the Journal of Palestine Studies.

"We set a deadline for ourselves, agreeing to close the remaining gaps and finalize all the elements of an agreement by June 1996, at which time we would send what we had agreed to a special drafting committee. The expectation was by September 1996, the final document would be ready," he said in the interview, conducted over a period of time ending in late November.

It remains unclear whether the

Molcho to head talks on final status

By DAVID MAKOVSKY

Prime Minister Binyamin Netanyahn's friend and attorney Yitzhak Molcho, who headed talks on Hebron, has been named chief negotiator for talks with the Palestinians on the final dispo-

sition of territories, the premier's aides said yesterday. As mandated by the Hebron agreement, those talks are scheduled to resume in March and conclude in May 1999. The Prime Minister's Office announced that Foreign Minister David Levy was given the apparently honorific title of heading the steering

committee on the Palestinian talks. It appears likely that the Defense Ministry will head talks on implementing outstanding issues related to the interim agreement, such as dealing with the establishment of the Dahaniya airport in Gaza, seaport, and safe passage between Gaza and the

PM: 'Bridging formula' with Syria being sought

Efforts are being made to reach "a bridging formula" which will enable the resumption of the talks with Syria, Prime Minister Binyamin Netanyahu told the Knesset plenum yesterday. He said this should be possible with good will on both sides, combined with the efforts of the US.

He said it would be known very soon if these talks are possible.

The same sentiments -- and almost the same words - were used by Foreign Minister David Levy when he appeared before the Foreign Affairs and Defense Committee in the morning.

Netanyahu said he was encouraged to hear that Syrian President Hafez Assad had said peace is more important to Syria than to formula" several times.

Ben-Porat warns against overspending

State comptroller says local authorities' debts caused by mismanagement

Many of the local authorities' deficits are due to overspending, and the government should prevent this by monitoring budgets more closely. State Comptroller Miriam Ben-Porat said in her report on the local authorities released yesterday.

Ben-Porat found that employees received payements in excess of what they deserved or what was specified in the budget and numerous violations of building regulations.

Ben-Porat's report noted that some of the violations had been pointed out in previous reports and criti-cized local councils for their "apathy" and "lack of motivation" to correct them.

The local authorities are responsible for their employees, she wrote. However, the report continued, the Interior Ministry has overall authority and it did not exercise it to the extent it should have. The ministry

should have examined the budgets more closely. The report also criocized the government for covering their debts, saying it was like awarding a "prize" that grew as councils' overspending wors-

Haifa Chemicals workers continue protests

"At the same time, we don't want them to feel too comfortable while we are all out of work and the factory itself is shut down. We will stage more demonstrations there," Raviv said.

The firm's management, meanwhile, is demanding that the workers honor and abide by an order of the National Labor Court banning them from continuing their

Management, however, claims that strikers, other than members of the workers committee, are still inside the factory and preventing access by management.

Raviv denied the allegations, maintaining that the workers' protest tent was pitched outside the compound near the entrance to the plant and that only committee members were inside.

The demonstration yesterday followed yet another breakdown in negotiatioos over a new collective labor agreement. Management insisted that it was prepared to negotiate a new collective agreement. However, Histadrut Haifa and district branch chairman Baruch Zaltz maintained that management's inflexibility over key

issues was inconsistent with its statements. The firm is apparently still insisting on cutting the 500-strong work force by 120 employees in order to reduce costs and enable the company to compete profitably on overseas markets.

The Histadrut has proposed that 60 workers take early retirement and that discussions over more staff cuts should be conducted through arbitration. Management has so far rejected this idea. Meanwhile the Histadrut's Haifa branch

- with the backing of the national headquarters - is today due to submit a petition to the High Court of Justice against last week's National Labor Court decision annulling the previous collective labor agreement

on secular burial

By EVELYN GORDON

MK Dedi Zucker (Meretz) and former Meretz MK Benny Temkin yesterday petitioned the High Court of Justice against the Religious Affairs Ministry's failure to allocate land for non-religious burials.

In March 1996, the Knesset passed a law, sponsored by Zucker and Temkin, which required the ministry to allocate land for secular burials and promulgate regula-tions to govern such burials. This law was meant to solve the problem of Russian immigrants who are not halachicly Jewish, as well as to provide an alternative for

religious burial.

In the 10 months since the law was passed, bowever, no such regulations have been promulgated and no land has been allocated, the petition said. The ministry has therefore effectively negated the

The petition noted that the law did not stipulate any deadlines for when these accons had to be taken. The accepted rules of legal interpretation, however, state that if no deadlines are set, the law must be implemented "with all due speed." Ten months with oo action does not constitute "due speed," the petition said.

Yeltsin cancels Dutch trip, renewing fears over health

By TIMOTHY HERITAGE

MOSCOW (Reuter) - President Boris Yeltsin cancelled plans to visit the Netherlands on doctor's orders yesterday, deepening con-cern about his health and raising new doubts about his ability to rule Russia.

A Kremlin spokesman said doctors had advised the 65-year-old president, who is recovering from oneumonia and has not been seen in public for three weeks, not to eave Moscow.

Opposition loses Belgrade ruling but takes over Nis

BY MARK HEINRICH

BELGRADE (Renter) - Serbia's opposition movement lost a court battle with the ruling Socialists yesterday over coorrol of Belgrade after disputed local elections but took power in another large city, albeit with few powers.

Tens of thousands of opposition protesters joined an Orthodox religious boliday march in Belgrade earlier in the day as a Russian diplomat met government leaders seeking solotions to Serbia's political crisis, apparently with little result.

Political sources said Milosevic hoped to gradually defuse the uproar over annulled local elections by allowing protesters to let off steam in public rallies, granting inconsequential concessions and diverting attention vith economic reforms.

The Zajedno (Together) opposition coalition has staged 10 weeks of street protests over the Socialists' refusal to admit defeat in municipal elections countrywide whose results were nullified over unspecified

In Belgrade, the city electoral commission which bucked Socialist pressure and awarded victory to Zajedno last week said yesterday its ruling had been quashed by the First Municipal Court.

Commissioo chairman Lazarevic was enraged by the ruling. "The decision is completely against the law," he told reporters. "Truth and justice are endangered. There is a legal right of the people to start a rebellion.

Belgrade analysis said the court decision may set the stage for a political standoff in which Zajedno and the Socialists would attempt to form rival city governments.

The two sides had been involved in a bewildering series of legal moves and counter-moves for electoral vindication in Belgrade since the original annulment io late November.

The electoral commission ruled in favor of the first Zajedno appeal but courts under the influence of Socialist hard-liners threw out the decision and subsequent appeals.

Socialist authorities held two more rounds of elections which were boycotted as fraudulent by Zajedno.

Factfinders from the Organization for Security and Cooperation in Europe verified Zajedno's claim to victory in all 14 towns but Milosevic has disregarded the

OSCE verdict. He is believed to bave instructed hard-line deputies to frustrate handovers of disputed municipal governments by mirrog the

Bur Zajedno's joy in Nis was tempered by the stark reality that it would enjoy few powers to make meaningful changes soon, including releasing economic activity from distorting state controls - a major plank of its protest campaign.

"What we are in charge of is the waterworks, sewerage and garbage disposal. Our biggest problem is the economy which is under complete control of [Socialist] republican bodies," said new Mayor Zoran Zivkovic.

Zajedno lacked power even over the Nis police, who report to Milosevic's Interior Ministry in Belgrade.

But opposition takeovers at municipal level will belp break the Socialist monopoly in local radio and television and Zajedno hopes this will make a difference when parliamentary and presidential elections are held late this year.

Germany pays tribute to Holocaust victims on Remembrance Day

BONN (AP) - With calls for elderly Germans to cease their silence about the Holocaust, Germany yesterday paid tribute to the 6 million Jews who were gassed, shot, worked, and tortured to death during the Nazi era. ..

Newspaper commentaries, politicians' speeches, and visits to schools by Holocaust survivors marked the 52nd anniversary of the liberation of Anschwitz by Soviet troops.

The Auschwitz anniversary last year was named the Day for Remembering Victims of the Holocaust, and is intended as Germany's official day to express sorrow for the Nazis' crimes against Jews.

During a ceremony in parliament, a politician whose father was executed by the Nazis said willing to confront the Nazis' crimes and that greater efforts must be made to imagine the suffering that was inflicted upon the Jews.

"The victims and their offspring had to experience that which we Ethiopia hesitatingly wanted to know. They carry this experience with them, said Klaus von Dohnanyi, whose father, Hans, was executed in April 1945 for plotting against Hitler.

Dohnanyi, a former mayor of Hamburg, said: When we remember the victims, we must try to seuse their suffering."

Michel Friedman, a spokesman for Germany's Jewish community, said many elderly Germans have kept sileot about being part of the Nazis' killing machine, or about looking the other way as Jews were herded onto caule cars and

British ministers fix sights on May 1 election

By ALAN WHEATLEY

LONDON (Reuter) - Prime Minister John Major yesterday won the backing of his cabinet to delay Britain's election until May 1, the last practical date on which he can face the voters.

Stephen Health Secretary Dorrell confirmed the decision to waiting reporters as a day-long cabinet meeting at Major's official country home, Chequers, broke

The Conservatives won a fourth consecutive general election victory in April 1992, but are allowed to delay a poll until May this year. Receot polls have shown the Conservatives trailing some 20 points "behind "the opposition Labour Party, but the media has been speculating that Major could set an election date in April or

Labour will win the seat, which would put the Cooservatives in a minority of one in the House of Commons and send their oppocents into the election fray with their tails up.

Critics say the Conservatives have run out of ideas after almost 18 years in power.

But Dorrell said ministers had agreed an election manifesto "that will build on 18 years of reform." This would involve continuing with economic and social reforms intended to increase opportunities for all.

Donell said the Conservatives would expand ownership, choice and opportunity by, for example, opening more selective grammar schools and improving National Health Service.

He said the cabinet had also discussed candidates for future privatization and the next stage of the Conservatives' agenda to deregulate British business.

On economic policy, he said ministers reaffirmed the twin goals of reducing public spending to less than 40 percent of gross domestic product and moving towards a basic income tax rate of 20% from the current 23%.

Queen Elizabeth upset over yacht row

LONDON (Reuter) - Britain's Queen Elizabeth, battling to restore dignity and affection for the monarchy, was said yesterday to be dismayed at being dragged into party poliocal squabbling over a proposed new royal yacht. A pledge by the opposition Labor Party not to pay for the £60 million replacement vessel, promised last week by the ruling Conservatives just weeks ahead of an election, has put the royal family back in an

unwelcome spotlight just when it was hoping for a period of quiet. Aides at Buckingham Palace said the queen, who has always prided herself on remaining above pobtics, was anxious about the effect of the squabble on the standing of the monarchy - damaged by a string of messy divorces and a high-spending image. "Her Majesty is unhappy at the way the issue has been handled because it has been turned into a political issue. She is naturally sensitive about anything that affects the standing of the monarchy," one royal source told reporters.

A true unity policy

abor MK Yossi Beilin and Likud MK Michael Eitan should pay no heed to the sniping against them -- from both sides -for hammering out an approach towards Israel's impending final status talks with the Palestintans.

Regardless of the details of their agreement, they have set a positive and much-needed example of leadership through compromise. The gauntlet has been thrown to the top political echelon to follow in their footsteps.

The group of MKs from the coalition and the opposition, led by Beilin and Eitan, that worked to reach agreement came to a number of important points of consensus. Both sides proclaimed victory. Beilin announced that key Likud members had for the first time agreed to "a division of the Western Land of Israel" between Israel and the Palestinians. Eitan declared that it was "an historic day" for Israeli settlers, since Labor agreed in the document that no settlements should be uprooted in the final status agree-

Other key points of agreement were that Israel should not return to the 1967 borders, that Jerusalem must remain unified and that the future Palesonian ennty must be demilitarized.

Regardless of each side's attempt to "spin" public opinion on the document, its main significance lies in whether it spurs the forging of a similar consensus hetween Prime Minister Binyamin Netanyahu and Labor party leaders Shimon Peres and Ehud Barak.

Since the reluctant hut determined adoption of the Oslo Accords by a righost, there has been much talk of the possibility of a national consensus within Israel. In fact, the first person to speak of such a consensus was the prime minister himself.

Netanyahu began his first speech as prime minister by saying, 'The State of Israel is emharking oo a new path today, a path of hope and of unity, a path of security and of peace. And the first and foremost peace we must make is peace at home, amongst ourselves." The connection between unity and peace is, arguably, central to Netanyahu's world view, as it is to the participants in the Beilin-Eitan exercise. It is not surprising that a government of the Right is stressing this connectioo, because the poteotial for consensus is its principle asset in comparisoo with a Left-leaning government taking a similar course.

The governments of Yitzhak Rabin and Peres would no doubt bave preferred to have an Israeli consensus behind them, hut they did not let its absence hold them back. The Oslo Accords of a unity government along with the prize of a passed the Knesset hy a single vote. Although unity policy.

the Hebron agreement was, in many ways, simply a restating and implementation of Oslo. it won the support of almost three-quarters of the Knesset.

Despite Netanyahu's renowned rhetorical gifts, he has been oddly tongue-oed when it comes to translating the structural consensus for peace into a sense that the government does indeed enjoy such broad national backing on these issues.

Despite his post-election promise to make the forging of an agreement with the top opposition echelon, along the lines of the Beilin-Eitan agreement, his highest priority. Netanyahu has not done so. This promise was not just a popular thing to say: it was in his poliocal interest.

Nothing could strengthen the government's hand more in negotiations with the Palestinians than establishing agreed-upon red lines with the opposition. If such an agreement had been established from the outset, it is unlikely that the Arab world would have succeeded in isolating the new government so quickly, and Israel would today have been in a stronger position.

The government's initial headstrong, go-italone approach can be explained by the mistaken sense of power that new administrations have. Now that the hubris is beginning to wear off, the most likely explanation for delay in forging a national unity policy is the perceived dangers of a national unity government. More specifically, the question in Netanyahu's mind is no doubt whether Peres can be trusted to he a loyal participant in a unity government.

Following his defeat in the last elections, Peres has said that advancing the peace process is his only priority. Whether or not he regards it as synonymous with promoting peace, his equally high priority is personally returning to power, as seen in the deal he reached with his likely successor, Barak, which bas Peres leading the party into a unity government if such a goverament is formed by late this year.

It is certainly possible that Peres has changed since he engineered what Yitzhak Rabin called the "stinking maneuver" in a failed attempt to topple the previous unity government in 1990. But Netanyahu might oot be willing to take that risk. On the other hand, it is assumed that Peres would torpedo any attempt at a unity government that would leave him outside the govern-

Peres may be facing his greatest test of statesmanship at this moment. If peace really is his main priority, the surest way to advance it is not to force the government to accept the baggage

It is common knowledge that at the conclusion of World War II the Czech Republic threw out 2,500,000 German-speakers from the Sudetenland. They have never returned nor have they received compensation nor recovered their worldly goods. Recently, the Germans and the Czechs signed an agreement which in essence recognizes that the Germans were thrown out by the Czechs for which the Czechs are sorry, and that the Germans acknowledge they were pro-German (Nazi) and therefore enemies of the Czech Democratic Republic. Both sides recognize their responsibility for what happened but agree the Germans will receive neither compensation nor apology. Having decided to make my home in another country, I have never felt comfortable with the idea of helping decide the polincal fate of a nation I no longer live

Not surprisingly, the introduction by the Likud of a Knesset bill to allow Israeli citizens to cast an absentee ballot from ahroad - a privilege currently granted only to foreign diplomats and merchant seamen - leaves me both astonished and outraged. Astonished that such a hill should come from the nationalist-Right side of the political spectrum, and outraged that what seems to be purely political considerations are hehind a move with serious anti-Zionist ideological repercussions.

Proponents of the hill have pointed out that absentee ballots are now a feature of most "normal" Western countries, such as the US. True enough; but I'm a little confused bere.

Is the Likud saying that we are now indeed a normal country, and not one which still has to make crucial security-related decisions which should be decided by those who have to live - or die - by their consequences? Have I missed something, or is the govemment now telling us that the "New Middle East" has actually arrived?

It is true that some Israelis currently residing abroad have every intention of coming back bome after they finish the studies or work that took them out of the country. But what percentage of them make up the some 600,000 Israelis now residing ahroad?

And how could one possibly distinguish between them, and the large majority of yordim who will never return here to serve in the army reserves or pay the taxes demanded of citizens here? Isn't the best test, in fact, simply

It's clear that most of the hill's backers are supporting it simply out of a general belief that most of these absentee votes will go to the right-wing. As far as I know, there's no hard evidence that actually supports this ootion.

Evco if it is so, it's sad that a decision with such unfortunate ideological consequences should be decided solely as a matter of polinical expediency.

The bill does have right-wing opponents in the Knesset (like Tsomet MK Pini Badash), as well as left-wing supporters like Jewish Agency Chairman Avraham Burg. Burg, who once suggested

The world has greeted the Hebron agreement with a triumphant "I told you so." The tone is patronizing, the praise ironic. Netanyahu, it seems, has belatedly found enlightenment, coming around finally to the wis-dom of giving up land for peace, after endlessly swearing he would

As usual, this conventional view is wrong on the facts, and profoundly wrong in its understanding of Netanyahu.

The fact is that while Netanyahu deeply opposed the Oslo agreement, he repeatedly declared that if elected prime minister, he would carry out the accords his country had solemnly pledged itself to. There is no more contradiction here than Ronald Reagan carrying out the Panama Canal treaties he originally had

passionately opposed. Netanyahu does believe, as do most Israelis, that Israel has a historic right to all of the Land of Israel. But he does not believe that historic right alone makes land in principle unrelinquish-

His bedrock belief is that retaining much of the West Bank is essential to Israel's security, and that giving it up could be suicide. But that is fundamentally different from the religious-nationalist belief that giving it up is a sin.

Netanyahu made clear from the start that he would adhere to Oslo, trying to make the best of a fait accompli by (1) insisting on the Palestinians reciprocally carrying out their part of the bargain, and (2) bolding onto as much strategic territory on the West Bank as Oslo could possibly allow. The idea that one can oppose an agreement but feel bound as prime minister to carry out its essentials seems beyond most commentators.

either, as Jerusalem Report columnist Ze'ev Chafets argues, to gain "votes, power and a place in history," or as outright capitu-lation to US pressure.

It is neither, because there was no jujitsu. From the very beginning of Netanyaho's tenure as prime minister, there was never any doubt that be would withdraw from Hebron. The only question was when and under what conditions.

The when was decided by Arafat. To the immense frustration of the US mediators, he held up the agreement for months. holding out for further post-Hebron commitments.

He got some. Netanyahn officially committed his government to carry out another element of Oslo: three further withdrawals from parts of the West Bank.

The previous government was preparing to use these withdrawals to give Arafat most of the West Bank - even before the beginning of "final status" negotiatious, which would decide the fate of Jerusalem, water rights, refugees and the final borders between Israel and the Palestinian entity."

It continues to amaze me that Labor could have designed a peace process in which it committed itself to giving away practically all its bargaining chips before the final, hardest, most critical negotiations even began.

Netanyahu was stock with this framework. And he is carrying it ont. But within it, he tried to minimize the damage hy getting important US assurances.

With Hehron, he got its agreement that the extent of withdrawal would be exclusively up to Israel. He has made clear that he has no intention of giving up anywhere near what Lahor was prepared to give up in these preliminary redeploy-

And he received a written commitment from the US secretary of state "to help ensure" that "both sides," including Arafat's, carry out outstanding commitments "on the basis of reciprocity.

Which means that if Arafat does not extradite terrorists, reduce his army to the limits permitted by Oslo and finally change the Palestinian charter. Netanyahu could stop his withdrawals and cite his US assurances as justification. Not the best deal in the world. But not bad.

With Hebron, Netanyahu has shown himself for what he is: a security hawk and a supreme real. ist. He was dealt a hand. He played it.

MEDIA BIAS Sir, - In the US both principle and tradition dictate that news broadcasts are reported and read in an objective manner and even the opinion shows have to present a fair balance of opposing views.

In shark contrast, Kol Yisrael, Army Radio, ITV and Channel 2 constantly twist, distort, manipulate and "color" news items to suit their "politically correct" worldview. It's easy to figure out the political viewpoint of Chaim Yavin, Shelly Yehimovitch, Arieh Golan and Meir Einstein (just to name a few) hy their vocal tones. facial expressions and word choices when interviewing public officials and poliocal activists. Far worse, they constantly argue with, interrupt and badger interviewees and represent right-of-center, religious and tradicional Zionist principles. TERRORISM ON THE ROADS

Sir. - When a terrorist attack occurs, the story makes the front page. What about the terrorism on our roads? Each week people are killed on our roads, but apparently it is not so important because the report usually takes a backseat to other news. A short piece appeared on page 18 (out of 20) of the weekend edition of January 10. It mentioned the death of two people in road accidents the previous day and added: "Since the beginning of the week, 12 people have been

killed on the roads. How about more coverage of the victims and their families? Perhaps running human-interest stories on each victim, whether killed or seriously injured, will shock more drivers and pedestrians into acting more responsibly on the roads.

BASELESS HATRED

Sir, - Rene Weil (Letters, January 15) says: "directly or not," the declaration by some rabbis that soldiers should refuse orders to vacate parts of the Land of Israel brought about the shooting of Palestinians in Hebron.

The soldier who did the shooting has spoken at some length about his motives. They range from avenging the terrorist murder of his best friend to stopping the peace process. He was expelled from a leading religious school because of his claimed mystical visions and attitudes. Nothing he has said and nothing in the public record even remotely relates his action to the rabbinic advice Weil cites. That linkage is purely Weil's construcnon. film dramatizing a 1946 pogrom in Poland has gained international attention after the Berlin studios of the film's German-Jewish producer were largely destroyed by what police describe as arson.

The film, From Hell to Hell, premiered in Los Angeles two weeks ago in an open screening at the Simon Wiesenthal Center and at a press conference at the German Consulate.

Almost immediately after the presentation, the Wiesenthal Center received scores of e-mail and phone protests, many from the Chicago area, by Polish-American organizations and individuals, charging that the movie defamed Poland and its people.

The protests went unnoticed in the US but were widely reported in the German media. The German press went all out after filmmaker Artur Brauner returned to Berlin early last week to find large parts of his studios burned to the ground, with damage estimated in the millions of dollars.

Brauner bimself and the Wiesenthal Center have been at pains to squelch German press conjectures of a link between the protests and the arson.

From Hell to Hell was inspired by the infamous pogrom on July 4, 1946, in the Polish town of Kielce, most of whose 25,000 Jews had been killed by the Nazis. After the war, some 200 sur-

vivors returned to Kielce and tried to reestablish their community. They were met with growing hostility until a mob, enraged by Polish nationalists and some Communists, went on a rampage. In their wake, they left 42 murdered Jews and 52 injured.

As word of the massacre spread, about 100,000 Jews left Poland en for best foreign film.

masse. Only last year, the Polish prime minister formally apologized to the lewish people for the Kielce pogrom.

Nevertheless, the 50-year-old tragedy still seems to hit a sensitive nerve among Polish-Americans. Among the protest letters to the Wiesenthal Ceoter was one by Deana Alvi, who identified herself as the chairwoman of the Polish-American Public Relations Committee.

Its purpose, said Alvi in a phone interview, is "to respond to anti-Polish statements, coming mainly from Jewish organizations, the Jewish press, and the Wiesenthal

While she acknowledged that "a tragic incident, which is still under investigation," occurred in Kielce, she bitterly denounced the film, which she had viewed at the Wiesenthal Center, as "offensive, inaccurate and utterly stupid,"

Alvi stated that her family had sheltered five Jews in Warsaw during the war, "while American Jews did nothing to help East European Jews."

She said she had oot heard of the torching and that "that's not the way to solve problems." But she exhorted Jews to realize that "their behavior has not been exemplary, otherwise they would not have been expelled from

every European country."
Brauner, 79 and himself a Polish-born Holocaust survivor, who moved to Berlin in 1946, said he had intended to make From Hell to Hell for the last 50 years. He was delayed, he said at a press conference, partly for lack of backing from German film support agencies. From Hell to Hell is a joint German/Belarus production, shot under a Russian director and with a mostly Russian cast. It has been submitted as the official entry of Belarus in the Oscar race

THIS WAS the first evening onder the directorship of Rami Be'er, who will need a fair amount of wisdom to choose better choreographers in the future. The program of the Kibbutz Dance Company contained three oew works. None of the pieces were complete flops, yet neither were they invigorating.

The most interesting work among them was Lieber R by Avi Kaizer, It starts with a dancer (Sivan Cohen) dressed in deep burgundy velvet, who arbitrarily spreads glaring white sheets of paper all over the black stage, yet with the intensity of a ritual. The work is supported well by the recitiog of Rainer Maria Rilke's poetry and the music of Richard

Strauss. Kaizer, who danced as well, managed to build enigmatic tension around minimalist means. The repetitious phrases gave it strength in the beginning but didn't suffice to sustain it till the

The two shows are running back to back, and eight of the students are in both. The Dumas is on the mainstage through February 16 and The Mill on the Floss is on at the intimate Hangar space from tonight through February 25.

The students adore him. "He has that English patience," says one. "He's fun," says another. "He's young," says a third, heartfelt. Bridel bas only to clack the clapper sticks he uses to get their lively and fascinated attention.

In the past four years he has worked at acting schools and universities in the UK, the US, Italy, Slovakia and now here. His own shows, like the '91 Carnival Street, won third place at that year's Edinburgh Fringe Festival.

His latest play, a drama of conflicting cultural mores called Shreds and Patches, was accepted to the 1995 London New Play Festival. When Bridel goes home to London, it will be to direct Hugo von Hofmannsthal's Electra, a dramatization of Richard Strauss's opera, at the Bridge drama school where he teaches acting, movement, clowning, masks and melodrama.

He would like to have his own theater school, but "I'm quite happy with the journey so far."

'Zarathustra' floods concert hall

Cello hostakovich's Concerto No. 2 played by Lynn Harrell and conducted by Semyon Bychkov in the Israel Philharmonic Orchestra's subscription concert No. 3, embodies despair. Occasional episodes of irony emphasize the atmosphere of doom and hopelessness. And outbursts of energy sound menacing, evoking military associations, until the work fades into a nebu-lous nothing, leading nowhere. Floods of sound are let loose, from powerful, low trombones, to radiant, high trumpets, from delicate chamber-like ensembles and an enchanting violin solo to overwhelming orchestral tuth in all inaginable combinations of tone colors. Bychkov accentrated these contrasts impressively, although this could have been done with more plasticity.

THERE IS something totally captivating in the musical presence and sincerity of pianist Alexander Korsantiva.

The 31-year-old keyboard wizard presented two completely contrasting yet at the same time complementing facets of bis musicianship on two consecutive days on the same stage last week. First came the solo recital in which he was simply magical and beguiling in two sonatas by Haydn, and then moving into Prokofiev's Seventh Sonata, as if the lyric poet was suddenly bursting into a raging

demon. It was one of the most engaging performances we have heard in many months, a powerful reading by an agonizing artist who lives and breathes every note in each

work he performs. But the highlight was Mussorgsky's Pictures at an Exhibition, which Korsantiya

played in a much more poetic and tender way than one might have anticipated.

It was an exciting reading which on the one hand concentrated merely on the music and the music making, yet at the very same time built a towering programmatic picture which told many minute stories in an engaging manner. In short, a performance that is

much more mature and intriguing than his own version of the same opus two years ago. A day later, with the Israel Camerata Jerusalem, Korsantiya performed Mozart's Ninth Piano Concerto (K.271) and surpassed all the heights he himself set the

Bankers: Tight monetary policy has spent itself

By DAVID HARRIS & GALIT LIPKIS BECK

The Bank of Israel announced yesterday it will cut its key lending rate for February by 50 basis points, to 14.2 percent, thus completing an aggregate 2.8% cut since August.

Since its 1996 peak of 17% at the start of July, the bank has reduced the rate by less than

The decision was taken in light of the current positive monetary policy, according to a statement from the bank.

The central bank said this has led to the ongoing decline in inflation, and the expectation of further reductions in the coming months. While inflation was running at a 15% annual rate in mid-1996, the year ended with 10.6% inflation, with the annual rate down to some 7% over the last six months of the year.

Other factors also takeo into consideration in making the decision included the continuing slowdown in economic activity, and the continuing rise of the key M1 indicator of money - ending the year at 12.3%, according to the

Now that the government has successfully passed its 1997 budget, including NIS 7.2 billion in cuts, achieving its budget deficit target of 2.8% of the gross domestic product, the bank said it is vital for the budget to be carefully monitored, to prevent possible deviations from the desired targets.

It is vital to attain the budget goals for 1997 and future years, in order to reduce the balance

In currency trading, the shekel lost 0.182% of its value against the dollar, which closed the day at a record high - NIS 3.3060, and depreciated 0.019% against the basket of currencies, which ended trading on NIS 3.6247.

The Bank of Israel's monetary policy has exhausted itself and can no longer achieve its targets, Bank Hapoalim chairman of the board Amiram Sivan said, hours before yesterday's

Emphasizing that the inflation rate has remained virtually unchanged during the last three years, Sivan said reduction of the rate can only be achieved at a high cost. "We pay a price in exports and activity," he said.

Most sectors in the economy are not suffering from a slowdown despite reports that the economy is on the verge of a recession, said

The slowdown has mainly hit the tourism, clothing and food fields, while the communications, high tech, and software industries are continuing to grow he said. In the real estate field, Sivan said there is a growth in demand for housing, with the exception of the luxury housing market.

"In general, we are experiencing a more moderate growth in activity that what we were accustomed to in previous months," said Sivan. Manufacturers Association president Dan Propper described the bank's tight monetary policy as "bankrupt." and called on the prime minister to enforce a balance between fiscal and monetary policy.

wins tender in Jordan

Elscint

By JENNIFER FRIEDLIN

Elscint Ltd. has won a tender to sell a \$1.5 million magnetic resonance imaging system to the Jordanian government, becoming the first Israeli company to sell a major piece of high-tech equip-ment there, the firm amounced

The MRI system will be installed in Amman's Al-Basheer Hospital.

The Haifa-based company, which develops and manufactures a host of nuclear medicine imaging, medical ultrasound, mammography and computerized tomography systems, beat out Toshiba, Philips, Siemens and GE for the tender.

While Jordan's MRI market is relatively small, company repre-sentatives said that the ramifications of winning the bid extend beyond financial considerations.

"There are two aspects to the deal," said Yuval Yanai, Eiscint's

There's the commercial one for Elscint, and since we are all Zionists there is also the hope that this will help other Israeli companies to sell in Jordan, which has never before purchased a significant piece of high-tech equipment from Israel."

Yanai also said that the sale of the company's top-of-the-line Prestige MRI system, which has research and development applications as well as clinical ones, also could lead to greater collaboration between Israeli and Jordanian doctors and hospitals.

Yanai said that Elscint's sales for 1996 are expected to total \$310m., while projections for 1997 indicate a decrease in profitability margins due to increased international competition, Elscint has been growing at an annual rate of

Bezeq: Gov't won't cover PA debts

By JUDY SIEGEL

The government refuses to transfer money owed to the Palestinian Authority for the coverage of PA debts to Bezeq, the telecommunications company

The Communications Ministry has repeatedly told Bezeg that it may not disconnect the PA from the telephone system in Israel or the outside world. Bezen said, adding that there was "no other efficient way to collect the PA's debts."

Bezeq director-general Yitzhak Kaul said that "out of consideration for the needs of the state," the company assented to government requests not to disconnect the autonomous areas from Israeli phone links.

Thus it was "vital" that an agreement signed by the Treasury and Bezeq six months ago - that sets down the mechanism for deducting funds owed to the PA and transferring them to Bezeq to cover the Palestinians' debts - be carried out.

The PA owes Bezeg NIS 45.4 million, according to Kaul.

The Finance Ministry says the PA's debts to Bezeq are not state debts and thus deductions from royalties may not be made; any reductions will have to be repaid, plus interest and linkage.

Trade deficit increases 4% in '96'

By DAVID HARRIS

Israel's 1996 trade deficit, excluding the diamond sector, totaled \$9.3 billion - 3.9 percent higher than in 1995, the Central Bureau of Statistics announced

The deficit with the US, also excluding diamoods, rose 35% last year.

Imports last year reached \$24.9b. (excluding diamonds and trade with the Palestinian Authority), 5% higher than in 1995. Exports totaled \$14.2b., up

The largest share of the deficit was with the European Union, some 72% (\$6.7b.) of the overall figure. The remainder comprised 21% (\$2b.) with the US, 9% (\$800m.) with Asia, and 12% with EFTA and other countries. The \$1.3b. trade surplus with the PA offset 14% of the total deficit.

The deficit with the US increased \$500m, or 35% over last year, and by \$140m. or 28%, with Japan. However, the deficit with other countries in Asia, especially Singapore, South Korea and Taiwan decreased, as did the deficit with the EFTA countries,

down by \$50m. (6%). When diamonds are included in the statistics, Israel registered a \$300m. surplus with the US, down \$200m. from 1995. There was also a \$110m. surplus in trade with Japan in 1996, compared with \$400m. the previous year.

Half of all imports originated in the EU, a quarter in the US, with 37% of exports going to the EU.

Exports to Asia increased 13%, with significant rises being recorded with South Korea, Thailand and Taiwan. Exports to Japan, excluding diamonds, were similar in volume to those in 1995.

Diamond exports totaled \$4.9b., a 6.6% rise from 1995. Of these, 39% were sent to the US, 35% to Asia (mainly Hong Kong, Japan and Thailand), and 21% to the EU (particularly Belgium). Diamond imports stood at \$4.8b., an 8.7% increase from the previous year.

Sivan: Let mortgage banks sell insurance

By GALIT LIPKIS BECK

Bank Hapoalim will lobby against Supervisor of Insurance Doron Sborrer's refusal to grant its mortgage subsidiary, Mishkan Bank, a permit to operate an insurance agency, Amiram Sivan, chairman of the board at Bank Hapoalim, said yesterday. During the last few years the

commercial banks have tried to

increase their involvement in the insurance business as part of their plan to expand into new areas. But the insurance companies and insurance agents who aiready compete in an intense market

the industry. Shorrer's objection to the mortgage banks' operation in the field is based on the fact that insurance agencies are defined as non-banking activities. Eurobourses dip

LONDON (Reuter) - European dropped to close in negative terribourses, which had drifted flat or mixed in thin trade all day, closed generally lower yesterday.

The early weakness in the US yesterday morning did nothing to help sentiment in Europe, where investors had been pondering whether they are seeing the beginning of the end of the bull market.

On the currency front the dollar ended steady in quiet trading just below the sessions highs, a contrast to the frantic currency trading of last week which took the US currency to multi-year peaks against the mark and the yen.

In London, Europe's busiest stock exchange, shares which had been flat most of the morning

tory after Wall Street moved lower. The Dow Jones Industrial Average was down 32 points or nearly half a percent as London closed.

Investors here were wary, unsure whether New York could be on the verge of a more substantial downside correction.

The blue chip FTSE 100 has some support at around the 4,200 level and a move below that area could attract some near-term buying, dealers said. It closed at 4,212.0. J Sainsbury, which plunged 13 percent after a profits warning on Friday, once again led supermarket shares lower on worries about a possible full-scale

England storms back

AUCKLAND (Reuter) England skittled New Zealand's opening batsmen in the second innings to press for an improbable victory in the first cricket Test at Eden Park yesterday.

At stumps on the fourth day, New Zealand was 56 for three in its second innings, with Adam Parore on 16 and captain Lee Germon, coming in as nightwatchman, on four,

New Zealand still trails England by 75 runs overall but its prospects of batting through for the draw were severely dented by the England bowlers in the final session of the day's play.

Dominic Cork produced a lively new-hall burst to have Bryan Young taken at fourth slip, after a juggle, by Nasser Hussain for

Blair Pocock went shortly afterwards, leg-before-wicket to a full length delivery from Darren Gough, and the game swung significantly England's way three overs before stumps.

Then first-innings centurymaker Stephen Fleming was out prod-ding forward to Phil Tufnell, the ball popping up to John Crawley at short leg to the undisguised delight of the English players.

England resumed this morning at 366 for six and went through to 521 all out at lea in reply to New Zealand's first innings 390.

Lefthander Graham Thorpe became the third centurymaker in the match, scoring 119 off 245

That gave the lourists a 131-run

New Zealand's hopes now rest with Parore and Germon, with Nathan Astle. Justin Vaughan and Chris Caims to follow. Australia-West Indies

West Indies master batsman Brian Lara ended his longest slump in test cricket with a defiant display of big hitting on the third day of the fourth Test match against Australia.

But Lara's 65 not out, including II fours and two sixes, appeared a virtual oasis in a West Indies balting desert, as four wickets fell about him in the final session to leave his team 154 for six at the

close of play.

The West Indies have the mammoth task of reaching 387 with just four wickets in hand on a turning pitch to make Australia bat again,

Australia, who lead the best of five match series 2-1, is oow virtually assured of a victory, which would deliver a series win and allow them to retain the Frank Worrell trophy they won in the Caribbean in 1995.

Rabkin falls short in indoor bowls

By HEATHER CHAIT

Jeff Rabkin obviously prefers the outdoor life. Playing this week in the World Indoor Lawn Lowls Championships in Preston, England, Rabkin could not repeat his runner-up success of the World Outdoor Lawn Bowls Championships In the singles, Rabkin lost 3-1 in the first round to Scotsman David Guernay while in the pairs, Rabkin and partner Neil Burkett of South Africa, lost by the same score in the first round to Adrian Welsh and David La Marquard from the Channel

GOLF: Caesarea's golf club hosted 92 players in a better ball strokeplay tournament over the weekend. The winners were Michael Bardugo and Dan Ronen with a ten under par 63. Dan Shalbar and Tamar Hariap were second, just one stroke behind at nine under. The third spot was more crowded as three teams tied with 66 each: Eli Gittin and Solly Friedman, Ron Sandler and Moshe Namdar, and Toki Shapira and Yoram Arbel.

ATHLETICS: Haifa's athletic stadium was the venue for some pleasing results at this early stage of the season. Philip Feingold won the 600 meters in 1:22:8, ahead of Ilan Moradi in 1:23:2. Kfir Golan won the 60m in 6:91 seconds while Rogel Nahum managed 16.30m in the triple jump. Ziva Elul won the women's 60m in 8:00s, with Anat Morad in 8:15s but Morad had her revenge in the 60m hurdles, winning in 9:21s.

TENPIN BOWLING: Ramat Gan, which boasts two teams in the league, has a clear lead among the men, with 245.5 points against the closest rival, Holon, on 235. In third place is Rehovot. In last week's games, Holon beat Rishon Lezion 41.5-11.5, Rehovot beat Petah Tikva 41-10.5, Ramat Gan's first team outplayed its second 34.5-17.5 and Tel Aviv beat Netanya 38.5-13. Topping the women's league is Rishon Lezion on 160 with the Ramat Ganis inching closer on 158. Netanya's juniors are leading their league. ahead of Ramat Gan.

HANDBALL: The national

team faces an important match tomorrow night in the qualifying rounds of the European Championships. The team will play Greece at Hadar Yosef stadium at 6.30pm and a win will advance them to the next round against Slovenia, France and the Czech Republic.

RUGBY: Past the half-way mark in the season and ASA Tel Aviv is leading the A league with an undefeated record. Leading the B league is Hapoel Kibbutz Yezreel, with just one loss. The fixtures for this Saturday are Rishon Lezion against Kihbutz Yezreel at the Sportek (noon) fol-lowed by Tel Aviv versus Ra'anana. At Kibbutz Sbamir, Galil Elyon will take on Jerusalem

TAEKAWNDO: The national team enjoyed success in an international competition in Bilbao, Spain. Tamar Golan beat Spain's Maita Vaskaz, bronze medalist at the last world championships. David Malchi brought home a gold medal for his two wins. The other team members were Adl Davidov, Dotan Cohen and Aviad Bloch. Next Tuesday Petah Tikva will host an open tournament at 4pm for youth and semors. Call (03) 930-0047 to reg-

BASKETBALL: The evening was sponsored by Elite to mark 100 years - 40 years of coffee and 60 of chocolate - but back in 1977 it sure tasted sweeter for Maccabi Tel Aviv. This was no normal game besides only 15 minutes each half and a crowd restricted to Elite invitees - the five heroes of the '77 European basketball win opened the game. Mickey Berkowitz, Lou Silver, Motti Arouesti, Jim Boatwright and Aulcie Perry relived the moments of magic but went down 65-47 to the team of Europe's greats from the '70s.

OLYMPICS: If you're apartment hunting and in pretty good shape, wait around for the year 2000. The contractor, Shmoel Olfiner, has promised a threeroom apartment in one of his proto the local athlete who brings home a gold medal from the Olympics in Sydney.

Kansas stays unanimous No. 1

NEW YORK (AP) - Kansas Kentucky, which held third place. remained the only unbeaten Division I team and the unanimous fourth and Maryl No. 1 in the college basketball poll yesterday, while Wake Forest moved back into the No. 2 spot.

The Jayhawks (20-0) received all 70 first-place votes and 1,750 points from the oatiooal media panel. It was their ninth straight week on top of the poll and the second in a row as a unanimous pick. The nine-week run at No. 1 matches the streak by Massachusetts last season. The longest run on top before that was

Duke's season sweep in 1991-92. Wake Forest (15-1), which beat Clemson and Florida State by three points each, moved up two places to follow Kansas in the voting for the eighth of the last nine weeks. The Demon Deacons had 1,645 points, 22 more than

Utah moved up one spot to spots to fifth, the highest ranking of the season for the Terrapins, who play host to Wake Forest on Saturday.

Minnesota moved up two spots to sixth for its highest ranking of the season, while Clemson, which lost to Wake Forest and North Carolina last week, fell five spots

Cincinnati, Louisville and Arizona rounded out the Top Ten. Iowa State jumped three spots to lead the Second Ten and was followed by Duke, New Mexico, Villanova, Stanford, Michigan, Indiana, Colorado, North Carolina and Xavier of Ohio.

The last five teams were Tulsa, Texas Tech, Texas, Marquette and newcomer South Carolina.

Kashtan takes helm at Hapoel Tel Aviv

By ORI LEWIS

THE post-Sinai era at Hapoel Tel Aviv soccer clob began yesterday with the appointment of Dror Kashtan as ther club's new coach. Kashtan, who has seen great success in the past with Hapoel Kfar Sava, Betar Jerusalem and Maccabi Tel Aviv, appears to be op against it this time, as his new (very poor) club will need all the help it can get to stay in the National League.

There are still no buyers for Hapoel Tel Aviv, a former powerridding itself of Moshe Sinai, the decide his next moves.

The Histadrut has already paid Sinai part of his severance pay to the tune of NIS1 million, with the final settlement to be worked out at a later date.

The clob is also uncertain about the future of two of its international stars, Felix Halfon and Alon Hazan. Halfon is adamant about leaving for Maccabi Tel Aviv, Hapoel Tel Aviv, a former power- althought the club does not want house of Israeli soccer. Even after to let him go, Hazan has yet to

Ditka: I'll take Saints job

Mike Ditka will return to the NFL as the new coach of the New Orleans Saints, it was reported yesterday. "I'm going to climb the mountain one more time. It's going to be fun," Ditka said during yesterday's Super Bowl game, the Chicago Sun-Times reported.

An announcement from the Saints is expected this week. AP

Reds sign Pendleton

Infielder Terry Pendleton and the Cincinnati Reds agreed Monday to a minor-league contract. Pendleton, a 36-year-old switch-hitter, hit .238 with 11 homers and 75 RBIs last season for the Florida Marlins and Atlanta Braves.

The Tel Aviv Museum's Schubert celebration continues tonight when the England-based Schidlof Quartet plays the composer's String Quintet with Israeli cellist Hillel Tzori. Also on the program are Beethoven's F major Quartet and Shostakovich's Fourth Quartet, at 8:30.

The Ramat Hasharon Camerata Orchestra presents a concert for the family today (5) in Ramat Hasharon, in which Yaron Gotfried leads this allfemale ensemble in music written to dance rhythms by Johann Strauss, Scott: Joplin, Mozart, Bartok, and some Israeli folk dance music as well.

Chamber Orchestra.

The Israel Chamber Orchestra family concert series features young composer/conductor Yonatan Adi Razel on the podium in a program combining works by Haydn, Grieg and Bach with improvised percussion music. The soloists are percussionist Boris Sihon, oboist Oded Pintus and flutist Michael Weintraub. Tomorrow (5 and 6) and Thursday (5:30) at the Tel Aviv Museum, Sunday (5:30) in Netanya and Monday (5:30) in Mizra.

Fans, unite. There's a happening just for you. While Israelis are just discovering the joy of comics, many Anglos have been addicts for years. Avid comics devotee Gilad Ellbom and Jerusalem's Habama Theater have teamed up to organize a ComiConference. Come buy, exchange, browse through comics from sources all over the country. Hear two slide lectures by Bezalel's Michel Kishka on contemporary comics (tonight at 7) and the history of comics (Thursday, 7 p.m.). Watch artists work and take in some of Habama's English-language shows like Tapeman, tomorrow at 9 p.m., or Anat Ben-David's Mouth (mixed with Hebrew) tonight at 9 p.m. At Habama tonight through Thursday from 5 p.m.

This week Ilana Dayan's Fact on Channel 2 examines the phenomenon of Palestinian suicide bombers. The documentary film Shahid - about three young Palestinians from Gaza, who were caught just before leaving for Tel Aviv to blow themselves up in a bus - includes intimate interviews which allow us an insight into their motives. The Islamic Jihad and Hamas claim they have dozens of similar young men waiting their turn. The film also examines the mental preparations of the Shahids, such as lying in graveyards at night, fasting and studying the Koran. They never say goodbye to their families, they just disappear. Tonight at 9:03.

France's Jewish property probe: 'A past which will not pass away'

educators in Jerusalem

PARIS (Reuter) - France's decision to probe the fate of Jewish property seized during the wartime Nazi occupation has brought hack to the surface what historians are increasingly calling "a past which will not pass

and other Western countries.

Prime Minister Alain Juppe, addressing Jewish leaders on Saturday, announced the appointment - perhaps as early as this week - of a commission to probe the scope of seizures hy the Nazis and by their Vicby French collab-

orators from 1940 to 1944. Juppe's decision follows increasing calls for the government to clarify the status of an unknown amount of property never returned to its rightful owners after the war, mostly because

they were killed in gas chambers. A recent book said authorities in 1944 took over from the retreating Germans - and still administered - possibly bundreds of flats left vacant by Jows killed in concentration camps.

A government body recently determined that 1,995 works of art seized from Jews were still "provisionally" in the care of French museums more than 50 years after the war.

Juppe's announcement followed moves to shed light on the dark years of World War II in other countries including neutral Switzerland and Sweden, which

have both been accused of profitably dealing with the Nazis and being paid in gold seized from their Jewish victims.

"This affair [in France] not only deals with reparations for the victims. It also has to do with the image that France bas of itself," wrote the Le Monde newspaper. "This is not a question of monetary compensation, it is a moral issue where the truth must be made known so that we can make peace with the past," said Henri Hajdenberg, president of the Council of Frencb Jewish Institution

(CRIF). Nazi bunters Serge and Arno Klarsfeld however said the government should recommend that orphans excluded from reparations paid after the war because their parents were not French nationals should now be compen-

"There are a number of real scandals which must be exposed and the most crying one of all is that West Germany paid France a huge sum after the war to compensate victims of the Nazis," Arno Klarsfeld said.

"France paid out the money to French Jews and non-Jews but excluded children born in France of foreign parents even though their parents were arrested by [Vichy] French police who banded them to the Nazis."
